

[Department of Diagnostic and Therapeutic Gastroenterology](#) [1]

Head of the department: Tomasz Wollny, MD, PhD, specialist in gastroenterology.

Contact: +48 41 367 4370

The Department comprises:

- Gastroenterology Clinic,
- Outpatient Gastroenterology Clinic ,
- Endoscopic laboratory.

We specialize in endoscopic diagnostic and therapeutic procedures in the upper and lower gastrointestinal tract: gastroscopy, colonoscopy, endoscopic ultrasound, ERCP (endoscopic retrograde cholangiopancreatography – examination of biliary and pancreatic duct) and endoscopic examination of the bronchial tree (bronchoscopy).

The Department is equipped with high-class endoscopic equipment. It has 3 endoscopy towers and 2 double endoscope washer-disinfectors. We are constantly striving to upgrade our existing and purchase new endoscopic equipment that meets world standards.

Since 2003 we have participated in the screening program in the detection of colorectal cancer. Our Department is preparing to perform endoscopic submucosal dissection (ESD) – a non-invasive method for removing flat neoplastic lesions (adenomas) located in the colon, esophagus, and stomach.

We cooperate with: NZOZ Olympus Endotherapy (Jan Pertkiewicz, MD) <http://www.endoterapia.pl> [2] Interventional and Bariatric Endoscopy Center, Hospital in Brzeziny (Micha? Spychalski, MD, PhD) <http://www.szpital-brzeziny.pl> [3]
